

**A NATURAL CURE
FOR THE PLASTIC
PROBLEM.**

PLASTIC-FREE,
environmentally
friendly,
natural and
biodegradable

Whenever you eat with tableware from naturesse®, you can be sure that you are doing a good deed for the environment. All naturesse® products are made of plant-derived raw materials that grow back very quickly or of natural products for which

farmers have no use. Your tableware is 100% biodegradable and environmentally friendly. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch

PLASTIC-FREE,
environmentally
friendly,
natural and
biodegradable

PLEASE DON'T CALL ME PLASTIC!

It might look like plastic, but it isn't plastic. Rather than crude oil, the PLA and CPLA products from naturese® are made from natural lactic acid that is extracted from various sources including corn and sugar cane starch. This means that your

tableware is 100% natural, 100% biodegradable and environmentally friendly. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch

**100%
NATURAL
SUGAR CANE,**
plastic-free,
environmentally
friendly and
biodegradable

KEEPING THE ENVIRONMENT SWEET.

Many people have a sweet tooth, and so does the environment. When sugar is obtained from sugar cane, a valuable biomass is created that usually goes to waste. This is what we used to make your

tableware. It is 100% natural, 100% biodegradable and environmentally friendly. **Want to know more about natural tableware and packaging? Then check out www.naturesse.ch**

MADE OF
NATURAL
PALM LEAVES,
plastic-free,
environmentally
friendly and
biodegradable

EVER EATEN ON A PALM LEAF BEFORE?

When the leaves of the betel palm fall to the ground of their own accord, we collect them for you and shape them into natural disposable tableware. The naturesse® palm leaf products are processed at source – a sensible choice both for the

environment and for us human beings. This means that your tableware is environmentally friendly, fairly produced and 100% biodegradable. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch

MADE
ENTIRELY FROM
NATURAL RESIDUAL
MATERIALS,
plastic-free,
environmentally
friendly and
biodegradable

YOU DON'T NEED A TREE TO EAT.

An area the size of 20 football pitches is deforested every minute to produce paper and cardboard. But there is another option: the PaperWise products from naturesse® are derived from natural by-products that originate from agricultural land.

As a result, no trees are felled and your tableware is 100% natural, 100% biodegradable and environmentally friendly. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch

**MADE OF
FSC®-WOOD**
to protect the forest,
plastic-free,
environmentally
friendly and
biodegradable

THIS TIME, YOU'RE BARKING UP THE RIGHT TREE.

Nature shows us the way to avoid plastic. It takes us directly to the FSC® forests, where wood and cellulose are obtained for natural packaging. The FSC® certificate guarantees the long-term protection of the forest and the plants and animals that

live in it. This means that your naturesse® tableware is 100% natural, 100% biodegradable and environmentally friendly. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch

**MADE OF
VEGETABLE OIL**
and starch, plastic-free,
environmentally
friendly and
compostable

NATURAL BAGS THAT GO EASY ON THE ENVIRONMENT.

The environment does not take kindly to plastic shopping bags. For that reason, the naturesse® range of carrier bags, other bags and films uses no plastic at all. Instead, they are made of natural vegetable oil and starch. This means that your

carrier or organic waste bag is 100% natural, environmentally friendly and can be disposed of in the compost. Want to know more about natural tableware and packaging? Then check out www.naturesse.ch
